## Player Spotlight: Scott McCormick (Waterski)

Scott McCormick has proven to be a valuable asset to the waterski team. Not only has he been studying for the LSAT so that he can one day attend law school, but he competed in the collegiate national competition, placing 3rd in tricks, 6th in slalom, 7th in jump, and finished 2nd overall, helping to pull men's team to 6th place overall.

**Q:** What is your year and major?

**A:** I'm Class of 2013 and my major is Political Science.

**Q:** How long have you been skiing? How did you get your start?

**A:** I've been skiing since I was about 5, so 16 years or so. I started water skiing because my dad water-skied a lot, and I look up to him.

**Q:** What has been your favorite part of being on the Texas A&M Water Ski team?

**A:** The best part of waterski team is the friends you make along the way, both on our team and throughout the South Central region, as well as all over the country.

**Q:** What has skiing and being on a team taught you over the years?

**A:** Skiing has taught me that no matter how good or bad you are at a particular hobby or sport, if you aren't enjoying yourself while you're doing it, then you are wasting your time.

Waterskiing isn't traditionally a team sport, but in the collegiate atmosphere, being on a team has taught me that sometimes the most unlikely teammates end up pushing you over the edge to victory. Every team member, regardless of scores, is immensely important.

**Q:** If you could play any other sport what would it be and why?

**A:** Well, uh, I play lots of sports for fun, in addition to water skiing, but I guess if I could be amazing at one sport, it would be some type of mountain sport, either snow skiing or mountain biking. I really enjoy the outdoors and going fast, so biking and skiing are perfect. Surfing would be awesome too, as no other sport really harnesses the power of mother nature quite like surfing. I've only been surfing once but I loved it.

**Q:** What law school(s) do you wish to attend? When are you going to apply or have you already been accepted?

**A:** As far as law school goes, I've got a few in mind that I'm working on applications for. University of Colorado Boulder has a great environmental law program that I'm interested in, as well as a couple of schools in the pacific northwest. I probably will also apply to Baylor law, possibly one other Texas school.

## The Ultimate Spirit

Frisbee has long been a part of college life, and A&M is no different. Beginning in the early 1920's, Ultimate Frisbee became less of a game of tossing around a frisbee and more of an organized sport. Students from Yale are credited with originally throwing the disc known as a frisbee, but it was two students from a high school in New Jersey who invented the sport as we now know it, Ultimate. Like any other sport, Ultimate Frisbee has its own variations of offensive and defensive strategies as well as a layout of the players on the field. Ultimate has even grown so popular that it has its own hall of fame for players who have been recognized among the ultimate community. Established in 2004, the Ultimate Frisbee Hall of Fame now includes 29 men and 11 women. The Ultimate Players Association now boasts to having over 35,000 members, which is an incredible feat for just 45 years. Beyond the goal of increasing players and championships, the sport of Ultimate Frisbee thrives on the spirit of sportsmanship that bonds every player of the game. Ultimate Frisbee depends on each player's responsibility to uphold the spirit of the game to the point that individual player's call out any penalties, as well as, respect the penalties called upon them.

**Sport Clubs Association Meeting, April 1st @ 6:30pm in SRC 281.**

## Finishing Strong on the Ice

The Texas A&M Ice Hockey Team opened their season in September with a 5-0 victory against Texas State. Since then, the team took triumphant strides on through to the end of the season with a berth to the Western Regional Showcase in Salt Lake City, Utah. The season was highlighted with a nine game sweep of Texas with a 78-16 total points margin and wins over #15 University of Nevada Las Vegas and #14 Oregon University at the San Jose Showcase. These victories gave the team the momentum for a playoff push. The Ice Hockey Team had outstanding performances that were contributed to by junior Peter Galasso, who lead the team with 52 points for the season, senior Chris Murray contributed 50 points, and junior Christ Turner with 43 points. Club President Tony Girard stated,

*"The Regional Tournament was my favorite time of the season. It was a great feeling having our hard work all season being rewarded with an invite to the Western Regional Tournament."*

The Aggie Ice Hockey Team plans to get prepared this offseason for a return to the Western Regional Showcase in 2014. Interest from incoming freshmen and students transferring to Texas A&M University has given the team confidence for next season.
